

Smart homes, better living

A decorative graphic consisting of a grid of white circles of varying sizes, arranged in a pattern that tapers to the right, located on the left side of the white text box.

Smart lock

Tylock: keyless entry for your front door

TYLOCK

Tylock: for your **peace of mind**

Easy to manage

No need for keys!
Choose how each person gains access:
with a smartphone, card or fob.

Easy to use

Say goodbye to endless sets of keys.
Four types of access rights provided: administrator,
moderator, user, guest.

Two-step security

Opening and closing your door is secured
by two steps: via your smartphone,
fob or card, and manually.

An intuitive app, free to download to your phone with no subscription needed

Tylock App:

manage access to your home

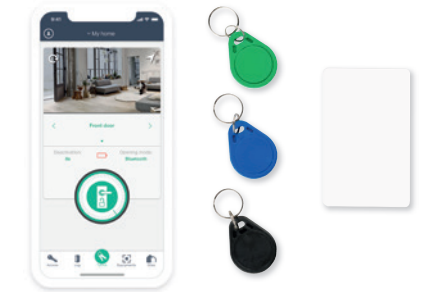

WHEREVER YOU ARE

ON-PREMISES:

Lock and unlock your door with your smartphone via the Tylock app or with your card or badge

REMOTELY:

Grant permanent access rights (residents) and temporary access rights (guests) remotely using a username and code.

Various access options:

SMARTPHONE - NFC BADGE NFC CARD

*Unlimited number of smartphones
Up to 250 cards and badges*

Note: cards and badges can be deactivated in the event of loss or theft

GOOD TO KNOW

because every penny counts

Close-range Bluetooth technology

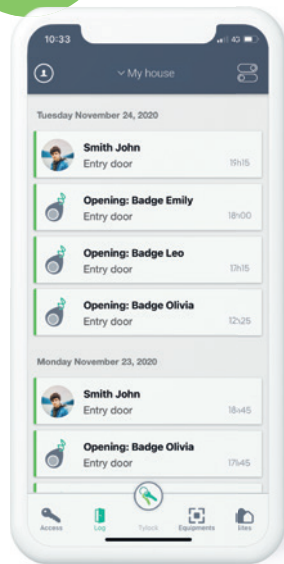

No subscription or additional services required

TYLOCK

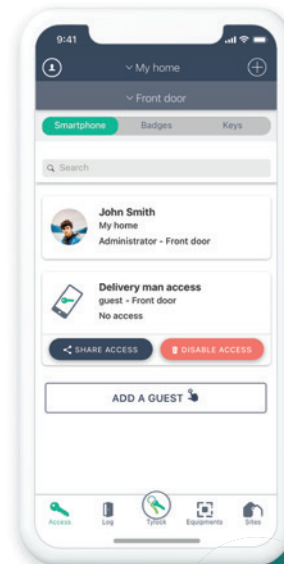

Check the event history to stay updated at all times

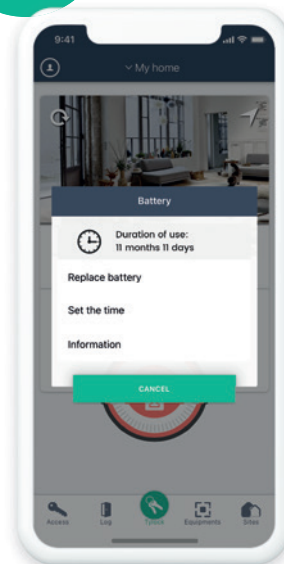

Easy opening without having to hunt for your keys

View the battery status (battery life lasts up to 2 years depending on usage)

Use adapted to every member of your family, guests, and external individuals

Receive notifications

Push notifications

You will receive an alert via your Tylock app and smartphone in real time when a user uses their smartphone or emergency key to open or close the door.

PRACTICAL:

Get peace of mind knowing your teenage children have arrived home safely, your delivery has arrived, your guests have successfully checked-in, and more.

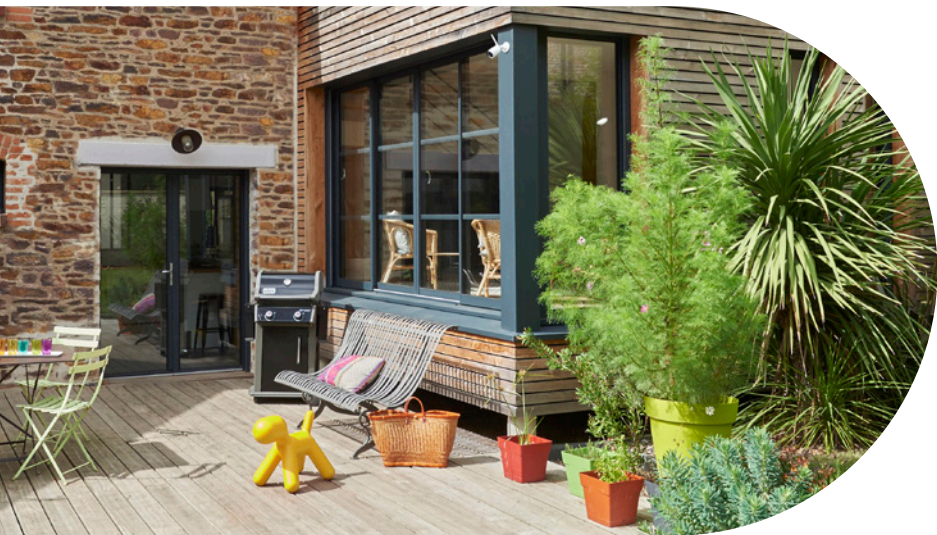

Event history at your fingertips

As an administrator, you can access events concerning door lock activation, access creation and changes made to settings at any time.

CAPACITY:

up to 5000 events over 3 years

Define multiple usage scenarios wherever you are

Guests staying in your holiday rental property receive an access code

A delivery driver delivers a parcel or a plumber arrives to fix your boiler

You are notified when your teenage children return home alone.

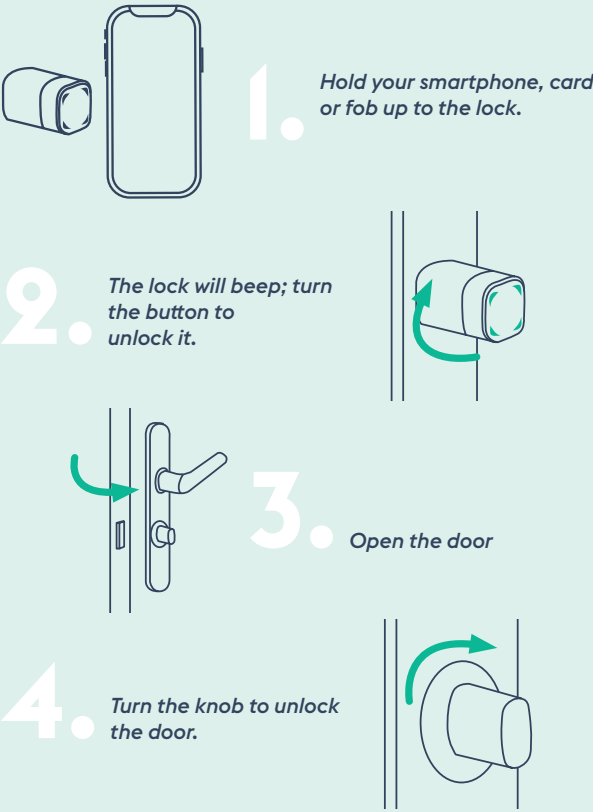

Losing your keys is a thing of the past

How does it work?

*Pressing the lock button does not open or close the door.
Two steps are required.*

Tylock: flexible integration

From private homes and apartments to offices...
Tylock can be used in both new and existing buildings.

Compatible with the majority of European-format symmetrical and asymmetrical doors

Adapted to existing locks (single-point and multi-point locks)

Enhanced security provided by Bluetooth technology, cylinder fitted with anti-drill protection and AES 256-bit data encryption

Installation made easier

Easy to fit - no major installation work required.

For renovation works: Tylock replaces the original cylinder in an existing lock. Bluetooth is quick to set up using the free Tylock app.

Optional emergency key

- pair with your smartphone using Bluetooth via the Tylock app
- Battery life: approx. 3 months (can be recharged in 15 minutes using the cable provided)
- Hint: keep it adequately charged in a location away from your home together with the spanner.

spanner
