

**Tydom, the smart home,
for you, everywhere**

so much POWER

in such a little box!

From Monday to Sunday, winter and summer, reinvent and simplify your everyday life, thanks to the Tydom Home smart home hub. Your life, evolved? And your home too! You enjoy more comfort, enhanced security, and you consume less energy.

Protect your property
Your cameras linked to your alarm provide notifications on the app and alleviate doubt.

Brighten up your day
Keep switching smart lights and bulbs from the app, or use your voice.

Open yourself up to comfort
Your blinds, gates, skylights - programmable and controllable from the app or using your voice.

Save energy
Programme your heating easily from the app, and save up to 17%*.

Control and programme your smart equipment using the mobile app and the Tydom Home hub.

Your life is evolving, and so is your smart home

The Tydom Home hub is opening itself up to accommodate the smart objects of today, and tomorrow.

Brick by brick, you can build your smart home to suit your own specific needs.

We offer the widest range of smart equipment for your home on the market (thermostats, alarms, cameras, lighting, roller shutters...).

More than 400 compatible products

Tydom Home is compatible with Delta Dore equipment and with equipment from the leading manufacturers of home equipment (garage doors, heaters, gates...)

Express yourself

Control your lights, blinds, and smart thermostats, or trigger programmed scenarios using the Amazon Alexa and Google Assistant voice assistants.

Zigbee compatibility

Tydom Home is compatible with smart sockets and bulbs* that use Zigbee 3.0 technology.

** depending on the model and brand*

Tydom Home,

your everyday companion

Monday, 7 a.m.

You get out of your bed, the temperature in the rooms, bathroom, and kitchen is perfect. Your house is ready for you. A simple command on Tydom, and your lamps switch on.

How? With Tydom, a Tybox thermostat, and Tyxia micro-modules, which automate your lighting.

Tuesday, 8:30 a.m.

In the morning rush, you leave the house in a flash. From the Tydom app, you can control and manage your windows/doors, and switch off lights that have been left on.

How? With Tydom, smart bulbs and sockets, and Tyxia micro-modules, which automate your blinds.

Wednesday, 12:30 p.m.

Your kids arrive home from school to an empty house. When they activate or disable the house alarm, your Tydom app informs you immediately. You can keep an eye on your loved ones.

How? With Tydom and a Tyxal+ smart alarm

Saturday, 4 p.m.

While far from home, you receive an urgent notification: an intruder has been detected in the garden. False alarm, it's the deliveryman. You open the garage door for him so that he can drop off your package.

How? With Tydom and Tyxam smart cameras.

The Tydom

app - simply all you need

WHEREVER
you are

Whether remotely or from your home, you can control your Tydom-compatible smart equipment in an instant.

WHENEVER
you want

Programme your scenarios and environments based on your habits and preferences. You save time, increase your level of comfort, and save energy.

WHATEVER
you want

Organise your application and its main page based on your favorite actions, and add photos of your rooms.

HOW
you want

Receive notifications directly to your smartphone, exactly when they are needed, free of charge, and without subscription.

Recognised quality

and established trust

For 50 years, our products have been recognised and have stood out on account of their quality. Today, 10,000 installers place their trust in us, and install our products in your homes.

Manufacturer warranty

Tydom comes with a 5-year guarantee.

French expertise

Tydom hubs are manufactured in our factory in Brittany, and this isn't about to change.

Eco-friendly products

All of our products subscribe to an eco-design approach, with a view to reducing our impact on the environment.

Tydom can also fit nicely into your consumer unit

A construction or renovation project?
Tydom Pro is the invisible version of Tydom Home, for installation in your consumer unit
It is also the smallest smart home hub on the market.
However, it is still as powerful as ever.

**Contact your smart installer
or your developer**

to select the most suitable solution for your smart home.
