Tycam: keeping an eye on your security

Stay connected, wherever, and whenever

Secure subscription-free connection

Keep an eye on your home, with recordings that can be downloaded and stored: your data is secure and stored via an encrypted SD card, at no monthly cost.

Watch live recordings

Instant and on-demand, day and night...
protect your family and your assets with an excellent quality live feed.

Intruder alert notification

Feel reassured that you will be immediately warned of any attempt to break into your home. With its integrated siren, the camera becomes an alarm system.

Keep control with a quick glance

Detection

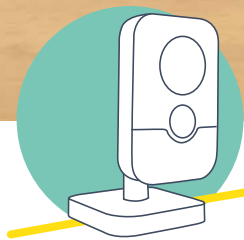

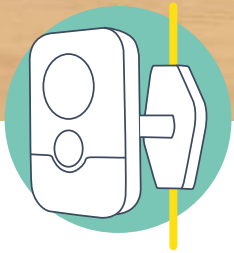

Fitted with integrated double detection (motion and video), nothing escapes the camera's field of vision. It systematically provides an alert with videos via the user's tablet or smartphone.

Monitoring

24 hours a day, and 7 days a week, the camera displays what is happening in its detection field at all times. Optionally: an audio confirmation or a series of recordings can be triggered and stored on the integrated encrypted SD card.

*Tycam II00 Indoor
P/N 64I7006*

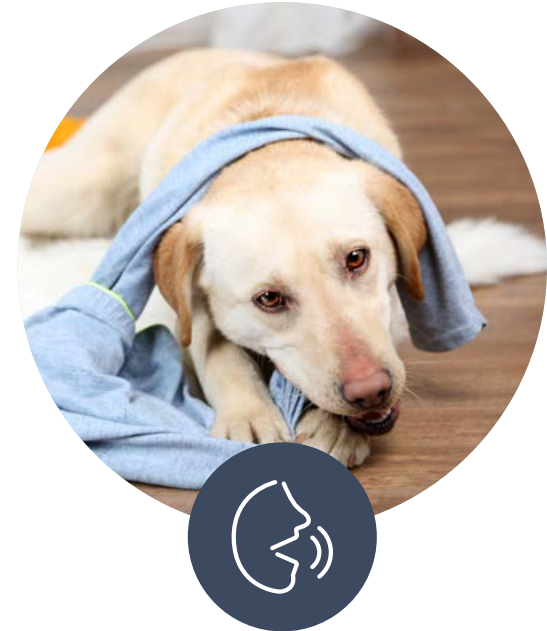

A multi-position camera

To optimise monitoring zones, the camera can be mounted to a wall, the ceiling, an item of furniture, a shelf, etc.

See and hear while respecting privacy

Easily switch surveillance on or off

One click is enough to deactivate video recording

Intercom for live communication

You are not just limited to seeing what is happening in your home, but you can also communicate directly with your family... or pets!

A deterrent siren to reinforce your security

The camera is an alarm system.
Including integrated double detection, it also has
a powerful siren (85 dB) to act as a deterrent.

SMART CAMERA

DAY

NIGHT

Connecting the camera with the Tydom smart home hub

Inseparable from the Tycam camera, the Tydom hub and its application
provide the user with a link to their home, wherever they are.

Associating the camera with Tydom
is made simple with the QR code

The key to controlling your **smart home**

The Tydom hub allows you to control a wide range of other smart products around the home, and it allows the smart home system to evolve over time.

Important: The Tycam camera is compatible with Tydom hubs that have already been fitted.

Heating, lighting, alarm, roller blinds, gate, etc.
