Tydom

a simple & intuitive smart home app

Tydom your home in the palm of your hand

Simplicity for the whole family, Tydom helps you control your heating, lighting, blinds, or alarm system, at home or away from home.

With the photo mode, the app becomes yours : command all your devices from the pictures of your rooms.

The app is free to download, subscription-free and secure.

Your home, your voice

All our products are compatible with Amazon Alexa & Google Assistant.

No compromise
on comfort

Your smart home is

COMFORTABLE
&
SUSTAINABLE

“
I can adapt the temperature to the use of each room and easily schedule it. Doing so I have a great comfort and I save energy!
”

Save energy & contribute to sustainability

Get the optimal temperature for each room, according to your family schedule.

Gain an insight on your energy consumption.

Save on your energy bills.

No compromise
on security

Your smart home is

SIMPLE &
SECURE

“
In case of intrusion detection, I automatically receive an alert with photos and videos on my smartphone. Thus, I am able to take the required actions, wherever I am.
”

Keep control with a quick glance on what is going on at home, wherever you are.

Protect your home & family with a wireless alarm.

Be reassured by the video sent by your camera.

Get notified when your kids are back home.
